SLAUGHTER HOSTAGES FOLLOWING BOMBING

Insurgent Planes Bomb City, Killing Large Number—Infuriated Leftists Demand Revenge And Sixty Prisoners Are Shot Down by Command of Authorities—New Drive

Premier of Spain Seeking Refuge on Argentine Ship

By ROBERT PARKER (Copyright, 1936, by The Associated Press)

BILBAO, Spain, Sept. 25.—Mobs slaughtered sixty Fascist hostages tonight and ran through the streets screaming for more executions after hundreds of citizens had been killed or injured in an insurgent aerial bombardment.

"Kill all the Rightists!" the infuriated mob cried as they stormed Government buildings and howled for their leaders to bring out all of the 4,000 hostages held here.

Rage-stuffed mobs, as the about-100 men, women and children ran through the streets that for more than two hours had roared with explosions of 500-pound bombs from eight Fascist tri-motored planes flying so low the features of the pilots were clearly discernible from the ground.

HEAVY CASUALTIES
More than 100 inhabitants of the city were either blown to pieces or crushed to death under piles of wreckage. Nobody knew or ventured a guess on the actual toll of dead and wounded.

Firemen and militiamen counted 126 dead, but they were still dragging more bodies from blasted homes, women and children dashed wildly to and fro, to claim their dead, but most of the bodies were so mangled identification was impossible.

As the Fascist planes, their deadly

Texas recently felt the brunt of floods that caused millions of dollars in property loss. The flooded North Concha River inundated San Angelo, piling this huge mass of debris against a street bridge. Whole houses may be seen jammed against the bridge where receding waters left them. San Angelo figures its flood damage close to \$2,000,000.

Questions of Public Importance Before Council of Church

Committee Presents Report on Birth Control and Sterilization of Mentally Unfit, Giving General Approval of Certain Principles

OTTAWA, Sept. 25.—Drought conditions in Western Canada call for help from the church in the East. Miss Rhea H. Fern, of Pelee, Sask., a worker in the home mission field, told the seventh general council of the United Church of Canada here tonight.

With many of the people depressed by poor crops or by no crops at all, the need for spiritual consolation and assistance was persistent, she said.

Miss Fern was one of the speakers on home missions. From missionary work in Northern Ontario, the Peace River, North Winnipeg and other parts of Canada came stories of the work being done by missionaries.

Birth control and sterilization of the feeble-minded were also discussed. With the presentation by Dr. Ernest

B.C. COPPER IS IMPROVED

Additional Men Taken On This Summer as World Price Moves Upward

Copper, once the backbone of metal production in British Columbia, with an annual value of \$18,250,000 at its peak is showing signs of recovery this year according to Provincial officials yesterday. Gradual but steady improvement in world prices for the base metal have already led to some revival within the province it was pointed out.

At Britannia Mines, operated as a subsidiary of the Howe Sound corporation, 100 additional men were taken on the payroll this summer and wage restorations amounting to fifty cents a day made a few weeks ago.

The Allenby Mine of the Granby Consolidated interests, which was shut down before the Ansox properties were closed, has been under review recently. Further improvement in market conditions might lead to a reopening of similar properties which could not be operated under conditions obtaining in the past few years.

TOUCHED \$18,250,000
Copper production in British Columbia reached a peak of 101,500,000 pounds in 1929, under unusual market conditions which gave that volume a value of \$18,250,000. Between 1927 and 1929, British Columbia copper production rose from \$11,500,000 to \$18,250,000, and finally to \$18,250,000. Then the market toppled. Last year the British Columbia output of the metal was 38,000,000 pounds, worth only \$3,023,000.

At the bottom of the depression in 1932, copper prices fell to 63 cents per pound or less. Recent quotations for the metal have been at 94

French Parliament Called Into Special Session to Approve Devaluation

PARIS STOCK MARKET CLOSED SEVERAL DAYS

(Copyright, 1936, by The Associated Press)
PARIS, Sept. 26.—France moved swiftly toward devaluation early today, armed with an agreement with Great Britain and the United States for equilibrium of the franc, pound sterling and the American dollar.

Officials of the finance ministry said the franc would have a new value of approximately two-thirds of its present worth, fluctuating between forty-nine and forty-three milligrams gold content, with no definite point fixed between these two figures.

A stabilization fund of 10,000,000 francs will be established under the tripartite agreement to keep speculators from driving down the franc and to maintain the franc's gold position, within the stated limits.

LITTLE THEATRE SEASON BEGINS

Following Meeting Last Night Decision to Give Play in November

The Victoria Little Theatre Association, at its first meeting of the season, last evening at the club rooms, Burdett Avenue, decided to begin, almost immediately, preparation for the production of a three-act play to be presented early in November.

The meeting, presided over by the president, H. J. Davis, was well attended, and discussion showed a lively interest and enthusiasm. It was decided to amend the constitution to provide for only one class of membership, with small membership fee. The idea of this is to enlarge the membership and at the same time bring it up to people who will take an active interest in the society, the consensus of opinion being that if the group was to continue on a successful basis they should put on experimental plays every month in the association rooms.

STUDY GROUPS
Measures will also be taken to give everyone some active part in the life of the group. To this end the membership will be divided into study groups, some of which will make a special study of production, others devoting their time to stage craft of various kinds, and still others forming for the study of other phases of the theatre.

W. B. Crawley, recently arrived here from Saskatoon, where he was connected with the Little Theatre movement for many years, has been given the chairmanship of the play-reading committee, and H. J. S. Reynolds, of the Bank of Montreal, has been appointed treasurer.

The executive will meet next Tuesday night with the play-reading committee to decide what play is to be presented in November. A general meeting will be held on Friday, October 9, to complete plans for the remainder of the season.

TO AID FRANCE IN DEVALUING FRANC

Continued from Page 1

Foreign currencies the right to hold up payments.

Finance Minister Vincent Auriol, announcing Parliament's decision, asked "readjustment of the currency" derived the stock market closed for several days and the French franc was valued at 100 francs to the pound.

The text of an official communiqué said the new value of the franc was set at 100 francs to the pound, a 20 per cent devaluation.

The British Treasury said Britain and the United States welcomed the French decision to "readjust" its currency.

In Washington, the Treasury announced the United States and Great Britain, with France, would use appropriate available funds to avoid any disturbance in international exchange resulting from readjustment of the franc.

Sixteen bills, it was learned, will be placed before the French Parliament, some of them designed to compensate French business interests for losses they expect to suffer through the franc's readjustment.

The session of Parliament is expected to last not longer than one day.

The general council of administration of the reorganized Bank of France was called into special session early today to study the consequences of the dramatic decision.

MAY DEFER PAYMENT
Finance Minister Vincent Auriol also decreed the payment of bills of exchange and other commercial obligations payable in gold or foreign currency which had due by the time of the decision.

Prime Minister Leon Blum stayed in Paris and cancelled his projected trip to the League of Nations assembly in Geneva.

France was forced into the new monetary policy by a series of pertinent developments, informed quarters asserted.

Shipments of gold were used for payments abroad, and an unfavorable trade balance, and the dwindling gold reserve precipitated speculations which depleted the Bank of France's reserves.

The last statement of the Bank of France showed gold reserves at approximately 50,000,000 francs, set as the minimum of the French "war chest."

Financiers tonight expressed belief devaluation would decrease disparity between French prices and world prices.

SUPPORT FOR GOVT
A degree of Government harmony in the financial crisis was assured by Communist party support. The Haves News Agency reported.

M. Auriol, in announcing the council of ministers had decided to submit the proposal to the Parliament, appealed both to body and to the French nation to accept the monetary action.

While waiting for Parliament to approve the decision, the Bank of France will take measures necessary to curb speculation. The franc market will be controlled and the Bourse closed for several days, it was stated.

The Chamber of Deputies, finance committee will meet Sunday to ratify the "approximate one-third devaluation" of the franc, officials said.

On Monday Parliament itself will act. Hours of ministerial consultation.

PROMISED AID BEFORE STRIKE
Witnesses Tell of Incidents Before Seattle Paper Walkout

SEATTLE, Sept. 25 (AP).—The strike-closed Post-Intelligencer submitted testimony to the National labor relations board today designed to show that Frank M. Lynch, discharged photographer, instigated trades union picket-line support of the American Newspaper Guild strike which closed the paper indefinitely August 13. The witness was Reporter C. Douglas Welch, former Tacoma and Cleveland newspaper man, fiction writer and dramatist.

Welch testified Lynch told him, after his discharge, that Dave Beck, Pacific Coast representative of the International Brotherhood of Teamsters, "was of a mind" to help Lynch.

SAYS BECK WILLING
Welch said Lynch told him "he knew a lot of labor leaders, and he would enlist their support for demonstration, or something like that. In substance he indicated that Beck was more than willing to back his part."

Earlier today, Mrs. Marian Sixkow, women's editor, testified that Photographer Art French, now on strike, talked about strike plans, and told her "they (the guild members) didn't expect to enlist their support, and that he had had a conference with Dave Beck and Mayor Dore. I believe he said, the night before, and everything was set."

been coming along not so badly" and every indication in trade had been "up." Then a dark cloud had appeared when drought struck a section of the Canadian West producing annually 200,000,000 bushels of wheat.

DOMINION-WIDE BLOW
The blow of the drought attack would be felt not only in Western Canada but right across the Dominion, the speaker said. Finances which would have come from transportation on the wheat up to this year produced by the area afflicted at present was lost. Purchasing power of 300,000 people was cut away. Considerable unemployment would result besides a "devastating influence on trade."

The drought in Western Canada this year would be a "terrible handicap to the people of this country," the minister declared. Inhabitants of the stricken section required food.

The situation had become so serious that it had become necessary to appeal to Provincial Governments and from the Provincial Governments to the Dominion Government.

The blow had come half-way through the fiscal year, however, and perhaps before the year's end "other factors" would have offset the damage, Mr. Dunning said.

Red Cross Praised By Doctor Who Saw First-Aid Service

Provincial President, Colonel J. S. Tait, Recalls Incident Illustrating Readiness of Organization To Act in Emergency—Subscriptions \$1.065

THE Red Cross always stands ready to render instant service in all disasters and emergencies. At the launching of the Red Cross campaign for \$15,000 a few evenings ago, Lieut.-Col. John S. Tait, provincial Red Cross president, told a story which not only illustrates the readiness of the organization to help, but the fine efficiency with which the workers go into action when required.

A bad motor accident occurred at 2 a.m. on the Pacific Highway near Johnson Road, just at the spot where one of the Red Cross first-aid posts is established. A young girl in her teens heard the crash, rushed to the telephone, and informed trained members of the first-aid post living in the community. She then telephoned Dr. Sinclair at Cloverdale. By the time he arrived the trained personnel summoned by the girl had removed the several victims from the wreckage and given them first-aid service. Dr. Sinclair, reporting details later, said that he had never before seen the victims of an accident attended to so efficiently by first-aiders as in this instance.

"STAND BY"
While the present drive for funds is in progress it is a good time to remind the public of how the Red Cross "stood by" at the time of the Fraser River Valley flood a few months ago, ready to act, as an auxiliary of the government, with 300 nurses, ambulance brigade, medicines, food, shelter, transportation, and boats. The big dykes, fortunately, did not break, so the service was never called upon to act. But the fact remains that the machinery was there, thanks to the Red Cross, to organize help had it been needed.

The campaign to date, it was reported at headquarters, 637 Fort Street, late yesterday afternoon, had brought in \$1,065 in subscriptions. The workers in many instances have merely sown the seed of the idea in potential subscribers' minds. The harvest will not be immediately available, perhaps, but good results are anticipated.

INDUSTRIAL FIRMS
Many of the industrial firms in the city are making a special point of approaching their employees and giving them the opportunity of subscribing whatever small (or large) amount they may feel like giving to the campaign fund of the Red Cross.

This is being done entirely on a voluntary basis. In one case where the firm employs a very large number of young girls, only three did not subscribe. The amounts were small, but they were symbols of the sympathetic interest of the girls, and their appreciation of the work that is being done by the Red Cross.

These details were brought to campaign headquarters by one of the staff who was assigned the work of collecting among the employees of this firm, and in making his report, this man showed much pride in the spirit shown by the girls.

On his arrival from the Mainland on Sunday morning, Premier A. G. McCreath, vice-president of the American Medical Association, will be greeted by the board of trustees here today.

NATIONAL DUTY
"We entered upon the re-equipment of our defence because we thought it a national duty," said the Foreign Secretary. "We shall persist in it unless and until the nation reach an international agreement for the limitation and reduction of armaments."

"If disarmament is to be real, it must be not only military but mental, not only weapons but war must be laid aside."

Britain could have no part, he emphasized, in a stand-still in armaments giving the advantage to nations which had been concentrating on the most intensive rearmament.

"We believe in democracy and in its survival," Eden told the Assembly. "Its ideals lie too near the spirit of the British race ever to be questioned. For us no other system, of whatever extreme, would ever be acceptable if it brought in its train suppression of our liberties and destruction of our traditions."

Worker: "You tell me that you say nothing better than that work. How is it then, that you can never find any?"

Shirker: "Ah, well, you know the old proverb—love is blind."

Arab Leaders May Call Off General Strike—Scores Killed in Clashes

JERUSALEM, Sept. 25 (AP).—Jews tonight observed in their most solemn religious holiday, the twenty-four-hour fast and worship which mark Yom Kippur, the day of atonement. Arab extremists and the Holy Lands constituted authorities appeared to be reaching a new climax.

At least sixty Arabs and one British soldier have been killed in clashes during the last twenty-four hours.

MAY CALL OFF STRIKE
With British reinforcements pouring into the country at a rate of about 1,000 a day, a ray of hope was seen in reports Arab leaders were considering calling off their general strike.

An appeal from a Moslem Movement whose leaders were not revealed was also said to be influencing the Arabs.

No indication of a let-up in the guerrilla strife was apparent tonight, however.

City Night School Classes Begin Fall Term on October 1

Courses Will Be Held in High School, Boys' Central School and Technical School—Captain George Breadner Is Supervisor

Evening Technical Classes, known to many as the "poor man's university," will open for another season at Victoria High School on the evening of October 1. Capt. George Breadner, supervisor of technical education for the School Board, is in charge of the system.

In years gone by hundreds of Victorians took advantage of the classes to learn trades, improve their ability to carry out their regular day work, profitably fill in long winter evenings, learn fascinating hobbies and improve their general ability along many lines. While most of the courses are given at the high school, a number of classes are held at Boys' Central School and the Technical School buildings on the same grounds. Fees in every case are extremely moderate.

It is interesting to note that the first extra-mural aviation ground course on the Pacific Coast several years ago. Since its inception registrations have been increasing yearly. The purpose of the course is to give a student a general understanding of the entire aviation field, and to provide a foundation for both aeronautical engineering and practical flying.

NEW COURSES
New courses this year include ornamental horticulture, elementary descriptive astronomy, architectural engineering, elocution and modern merchandising. There is a strong possibility a class in forestry will be organized.

Ornamental horticulture will deal with garden design and maintenance, cultivation of trees, shrubs and flowering plants and the function of each in design. It will also include planning of formal and informal gardens, borders, lawns and planting in relation to architectural structures. Rock, wall and water gardens will also be dealt with.

Architectural engineering is intended to assist architectural students to prepare for examinations, and the syllabus will be based upon work of the Architectural Institute of British Columbia. The course is useful to students of civil engineering, building construction and allied subjects.

ASTRONOMY COURSE
Elementary descriptive astronomy, also known as popular astronomy, aims to give a working knowledge of the stars firmament. It will cover the history, origin and position of constellations, the solar system and constitution of stars and planets. A knowledge of high school mathematics will not be necessary to follow the course.

Elocution will commence with voice and speech training, and will correlate with either choral speaking or dramatic art.

Modern merchandising plans to give instruction in retailing, advertising and sales.

He felt that his wife deserved a Telephone

THEY used to speak of her as "poor, tired Mrs. Tapping." With the regular round of housework, her children to look after and trip after trip to do the necessary shopping, the end of each day used to find her "all in."

"If I only had a telephone," she at last said to her husband, "it would save me so many steps."

Her husband realized this. He felt that his wife deserved a telephone, so he had one installed.

Life is so much easier for Mrs. Tapping now.

REPORT COUPLE STILL MISSING

Parents of V. R. Gravin and Wife Ask Police To Investigate

Widespread search will be commenced today by police authorities in an effort to locate Victor R. Gravin, former sports writer, and his thirty-year-old wife Doris, reported missing since last Tuesday evening and unheard from since that time. Police authorities were called into the case on Wednesday when neither husband nor wife had returned to their respective homes. Preliminary investigations were instituted, but active search was delayed in the hope the missing couple would be located. Police reported late last night they had not received any information concerning their whereabouts, and were still without any definite clue that might lead to a solution of the mysterious disappearance.

LAST SEEN ON TUESDAY
Police say they were informed that Mrs. Gravin left her place of employment, in Oak Bay, early Tuesday evening with the remark she would "be back in a little while." The husband, police were advised, also left his home on Oak Bay Avenue on Tuesday evening. Since then no one has reported having seen either husband or wife. Police were also told that the couple had been living apart for some time and that Mrs. Gravin had been employed as a nurse in Oak Bay. The husband had been unemployed for more than eighteen months and, in 1935, had a serious illness that kept him in hospital for several months.

Police say they are without knowledge of any arrangement between the couple to meet on Tuesday evening. They were also informed by parents that neither had taken anything from their homes prior to their disappearance.

DR. R. G. JACKSON HERE NEXT WEEK

Will Give Lectures in City on September 29 and 30—To Offer Demonstrations

Robert G. Jackson, M.D., who will lecture in Victoria on the evenings of September 29 and 30, is no stranger here. Each year Victoria is one of the first cities in his lecture itinerary. Dr. Jackson, who is now in his seventy-ninth year, began lecturing eight years ago, and those who have annually attended his lectures believe as he does himself, that he is growing younger each year. On this occasion the doctor has chosen as his subject, "The Mistakes We Make."

Dr. Jackson is greatly in demand as a lecturer. Annually he travels some 15,000 miles lecturing sometimes twice a day. His lectures are delivered in a spirited, strong and vibrant voice, and he demonstrates on the platform to what a state of perfection he has brought his once decrepit and broken-down body. He goes to the United States from here and his tour will continue until early Spring.

FORMER MISSIONARY TO INDIA TO SPEAK

Miss Florence Welby, retired missionary to India, will visit Grace Lutheran Church Sunday morning, September 28, and will tell of her eighteen years among the Telugu people of the Madras Presidency. The pastor will be in charge of the service, which will begin at 11 o'clock.

At 3 o'clock Miss Welby will speak to the Women's Missionary Society in the church, and refreshments will be served. The young people of the entire League will be in charge of the Vesper service at 7:45 p.m. in the church.

ANNUAL RALLY IS HELD BY CHURCH

Emmanuel Baptist Congregation Pays Tribute to Rev. Dr. A. S. Inrie at Meeting

Emmanuel Baptist Church held its annual Autumn Rally in the Sunday schoolroom on Wednesday evening. George Waites, church moderator, presided.

Mr. Waites on behalf of the deacons, thanked all organizations of the church for their co-operation and service. Deacon Clements, as one of the oldest church members, presented a congratulatory address to Rev. Dr. A. S. Inrie, marking the close of three years as minister at the church. Mrs. Inrie was presented with a corsage bouquet by Miss Emma Gower, a younger church member.

Rev. G. A. Reynolds, of First Baptist Church, and Rev. F. W. McKimmon, of Douglas Street Baptist Church, brought greetings and promises of co-operation from their respective churches.

Dr. Inrie gave an address on "Going Forward With Christ." Miss Catherine Dennison, and Mr. and Mrs. James Oakman of Grand Forks, B.C., were the guests of honor. Dr. Jackson, who is now in his seventy-ninth year, began lecturing eight years ago, and those who have annually attended his lectures believe as he does himself, that he is growing younger each year. On this occasion the doctor has chosen as his subject, "The Mistakes We Make."

IS SENTENCED TO SIX-MONTH TERM

Evan J. Robinson Pleads Guilty to Six Charges of Obtaining Money By False Pretences

Pleading guilty in Victoria and Saanich police courts to six charges of obtaining money by false pretences, Evan J. Robinson yesterday was sentenced to six months' imprisonment. Robinson was given six months on each count, all to run concurrently.

In Saanich court he pleaded guilty to obtaining \$10 from A. E. Reardon and \$750 from Edmond Lohrman, and in city court yesterday admitted taking \$7 from Miss Marjorie Brackenridge, \$6 from John Speiman and \$6 from F. C. Grimes. Tuesday in Victoria court he pleaded guilty to obtaining \$8 from Mrs. William McCulloch.

It was shown in evidence that the accused in each case had solicited work orders and agreed to deliver two cords of wood for varying sums, but he needed the money in advance to repair his truck.

City May Be Represented By Exhibits

Northern Pan-Pacific Peace Conference will be held for seventy-eight days early next year, according to a letter received at the City Hall yesterday from C. Cochran, of the Japanese Consulate at Vancouver. The conference will aim to include a number of cultural and industrial exhibits, and Victoria has been invited to participate.

Mr. Cochran requested the City Council to provide photographs of Government and city buildings, churches, parks, golf courses, summer resorts, hotels, farms, mining and lumbering. He also asked for literature on the B.C. Scout movement, educational work, children of British Columbia, flora and fauna.

DIED FROM STARVATION

Diary Tells Tragic Story Of Man Who Died in San Francisco

SAN FRANCISCO, Sept. 25 (AP)—An Alaska fisherman starved to death, a coroner's jury decided today, after making entries in a diary detailing the creeping pangs of hunger while he sought vainly for employment.

The wasted body of the man, Peter Peterson, forty-five, able-bodied seaman, was found in a cheap rooming house.

He apparently had gone almost without food for ten weeks, Coroner T. B. W. Leland said, and wrote his sufferings in a book.

DETAILED SUFFERINGS

The first entry was July 26, reading: "I am slowly starving to death. There is nothing to wait for but death."

"August 15—no food" read the next entry. "There isn't much time left. I will soon pass away. On the lounge for food. People do not understand."

"I have no money with which to buy food. I have been three weeks without anything at all to eat. There is no reason for me to hope and suffer. I hope the suffering will not be too long."

The last entry indicated Peterson, owing several weeks room rent, wandered the streets in a vain search for work or food.

FAIR PRAISED AT LADYSMITH

Entries Fewer Than Last Year but Splendid Displays Are Seen

LADYSMITH, Sept. 25.—Lady Smith's Fair on Wednesday and Thursday showed a slight decline in entries and general interest from the level maintained during the last few years.

While acclaimed as a splendid exhibit of the district's potentialities in agriculture and horticulture, there was a lessened entry in the divisions covering field and garden vegetables. The quality of the produce was exceptionally high in the potato and field root classes. In the section for table vegetables, the usual quality was apparent in smaller classes, the lack of greater competition probably due to the inclement weather. In these divisions George Wilson was a consistent winner as always, and this agriculturalist from the Cedar district has developed some prodigious and outstanding field produce without sacrificing essentials of quality and uniformity.

"The Mistakes We Make"

Dr. Jackson, who lectures here September 29 and 30, when fifty years of age was given but a few months to live by the late Sir Wm. Osler, at that time the world's leading physician. Yet today, twenty-nine years later, he is a strong, virile "young man of 78," able to do anything a physically fit man of 22 can do—and do it better. Hear Dr. Jackson tell from the platform how this seeming miracle came about.

During the past seven years Dr. Jackson has devoted most of his time to lecturing, traveling 15,000 miles annually, appearing before audiences nightly in the leading cities of Canada and the United States. He appears regularly before such prominent bodies as the Brooklyn Institute of Arts and Sciences and the New York Athletic Club. He crowds Massey Hall in Toronto and Tremont Temple, Boston, and is recognized as the leading lecturer in his field in America. Don't fail to attend these lectures—the physical and mental fitness of this "young man of 78" will hold you spellbound and you will carry away a message that will have an important bearing on your life and happiness.

Judge was considerably delayed in making his awards.

Some beautiful work was demonstrated in the artistic division. In the handicraft section Mrs. T. Colledge exhibited a pleasing and finely-executed novelty in place-card designs—miniature watercolor examples of local birds being given a third dimensional effect by the use of small sea shells for body and wing contours. This effort attracted considerable attention, as did her other entries in watercolor, in pen and ink and in pencil.

There were several entries in the photographic classes, particularly in the enlarged marine and landscape views, where a splendid picture of Portlier Pass gained commendation.

Much of this section was featured by mediocre subject matter, a drawback that good photography failed to overcome. A fine model of the famous ship H.M.S. Bonaventure, executed by Art Comley, showed a keen appreciation of detail and a finishing touch by the young artist.

SCHOOLS DISPLAY

In the schools display the poster work was outstanding, with several advertising local beauty and the charm of Vancouver Island in distinctive color and line design.

In connection with the show this year the Pottery Association staged an exhibition and competitive division downstairs in the Agricultural Hall. There was a good representation of leading breeders and a particularly strong showing in Rhode Island Reds—about a dozen were bred locally.

Mrs. John Malanoff exhibited a strange plant which she had raised locally from seed imported from Greece. It is known as "vaccinium" or "queen." It is apparently a species of rock plant and, when touched gives off a pungent aromatic perfume, reminiscent of lavender.

Floor space for commercial demonstrations was taken by Fletcher, Limited, with a radio exhibit, and by Rockers.

Lt. Col. C. W. Villiers opened the show officially Thursday afternoon, and in congratulating the directors of the Agricultural Society for their splendid effort commended the general standard attained by the displays.

She told authorities from a sick bed where she is suffering from a nervous attack as a result of the accident that she misread a switchboard signal and realized her mistake too late to prevent the crash of a local and an express train.

BIG YEAR FOR OCEAN TRAVEL

Ships Have Carried Over
Two Thousand Passengers
On Numerous Trips

The European travel season,
which this year has exceeded that
of several previous years, has caused
several steamship companies to an-
nounce the carrying of over one-
and in extraordinary cases—of over
two thousand passengers on certain
trans-Atlantic liners.

These figures of large individual
carrying have come to be no longer
of particular or exciting interest.
Now the Hamburg-American Line
North German Lloyd announce a
series of carryings that have estab-
lished a new record high for trans-
Atlantic crossings. On five con-
secutive westbound voyages their
express-liners Bremen and Europa
have had more than two thousand
passengers each, and on three suc-
cessive arrivals ships of the Ham-
burg class have brought more than
one thousand travelers each. So
large has been the demand for
accommodations that it has been
necessary to provide "bunkers" for
passengers.

The two thousand series was
started by the St. Bremen with her
arrival of 2064 passengers on
August 20, followed a week later
by 2151 homebound tourists on the
St. Europa. On the two eastbound
trips, the St. Bremen landed 2117
passengers on September 4, and the
St. Europa. Always being close
together, the two ships of the line
arrived Sunday with 2058
travelers, the St. Europa, fol-
lowing the St. Bremen due at
New York on Monday, September
28, will likewise exceed the two
thousand mark.

The three Hapag "excess-capacity"
arrivals were the result of the
land on September 4 when she
brought 1021 passengers, the St.
New York on September 11 with
1051 passengers and finally the St.
Hamburg last Friday with 1047
travelers. The St. Hansa, due at
New York yesterday, had more than
one thousand passengers, making
this an all-around achievement for
the four ships of this steamer class.

LABOR WATCHED BY DETECTIVES

United States Senate Com-
mittee Hears of Operations
Of Pinkerton Agency

WASHINGTON, Sept. 25 (AP).—
Testimony that the Pinkerton Na-
tional Detective Agency has 200
under-cover men engaged in col-
lecting information on union and
radical activities gave the Senate
Civil Liberties Committee today its
first broad picture of the extent of
the practice.

This figure came from officials of
the firm. They said their activity
had been halted in Wisconsin by
a recent law requiring registration
of private detectives.

LARGE COLLECTIONS
Pinkerton officials also testified
the agency collected about \$1,000,000
last year from large corporations in
all parts of the country for what
Chairman La Follette (Progressive,
Wisconsin) termed "labor spying."

In the closing session of their
week-long hearing on labor spy-
ing, anti-union espionage and civil
liberties violations, Senate investi-
gators learned that an army officer
and a Toledo, Ohio, union official
were among the persons who had
furnished information to the Pinker-
ton agency.

NO STRIKE-BREAKING
General Manager Asher A. Ros-
siter testified the firm had not en-
gaged in strike-breaking since the
day the 1922 Homestead steel strike
and that much of its business was
now connected with labor matters.
Rossiter testified that two days
after the committee subpoena had
been served on the Pinkerton Agency
he issued an order instructing the
firm's operatives to make no further
written reports but to make reports
to clients orally.

Noting that this week's hearings
were merely "preliminary" and that
he adjourned the committee sub-
ject to call. He indicated the next
inquiry probably would be scheduled
for December or late November.

That Body of Yours

(By James W. Barton, M.D.)

ADVANTAGES AND DISADVAN-
TAGES OF INJECTING
HEMORRHOIDS

A patient who has been told by
his physician that he requires an
operation for removal of hemor-
rhoids (piles) may naturally wonder
why he can't have the piles removed
by the injection method.

As a matter of fact the injection
method cannot be used in all cases
whereas surgery is suitable in al-
most all cases. Speaking generally, hemor-
rhoids are divided into three
classes: (1) Those that are well up
inside the bowel; (2) those that
are at the outer margin, but do
not protrude; (3) those that actu-
ally hang outside the bowel. All
the first class can be injected and
most of the second also, but the
third class (protruding piles) can-
not be removed by the injection
method owing to the severe swell-
ing.

But even where the hemorrhoids
are of the first or second class and
when the patient and physician
can have their choice of methods
there are certain advantages and
disadvantages about the injection
method that should be considered.

The advantages are: (a) No anes-
thesthetic required—a saving of
money with no after effects from
anesthetic; (b) there is no pain
during or following the injection;
(c) patient walks into physician's
office and out again—no time lost
from employment; (d) complica-
tions are rare; (e) injection can be
done even when the patient is suf-
fering from hemorrhoids of long
standing, long disease, or is very
old.

The disadvantages of the injection
method are: (a) Not suitable for
all cases of hemorrhoids; (b) there
are more recurrences (hemor-
rhoids come back again) with
the injection method than with
surgery, being about 15 per cent
after a period of two to five years;
(c) the injection method seems to
remove the hemorrhoids more likely
to be by a physician who is not
adept at using the needle as is a
surgical surgeon.

With experienced operators—very
careful preparation of the various
solutions used, complications today
are very rare.

Where there are definite reasons
why the injection method should
not be used it should, of course, be
avoided but in selected cases it is
an easy, painless and satisfactory
method of getting rid of hemor-
rhoids.

sidewalks. Three boys were given
guilty of this offence and fined \$1
each in Oak Bay court yesterday.
One dollar is the minimum fine
with \$50 as the maximum.

Membership Meeting.—Matters
concerning the organization of the
membership drive preparatory to
the opening meeting next Tuesday
were discussed at the membership
meeting held last evening in the
Y.M.C.A. and attended by the
majors and captains of the drive.

Ministers Returning.—Premier
Pattullo and Hon. M. P. MacPherson,
on the Mainland, yesterday,
are expected back at their offices
today. Mr. MacPherson attended
the annual meeting of the Good
Roads League at Vernon, and may
possibly remain over on the Main-
land until Sunday.

Tag Day Today.—The Dr. O. M.
Jones Chapter will hold a tag day
today in aid of its fund for supply-
ing milk to ill-nourished children
in the city schools. All last winter
the chapter supplied 303 1-2 pints
daily to needy children, and, as the
cause is such a worthy one, the
members feel confident of the gen-
erous support of the public.

Power Conference.—Major J. C.
MacDonald, provincial controller of
water rights, who attended an
international power convention on
the Atlantic seaboard, is expected
back at his office early next month.
British Columbia is interested in
water-power development south of
the border, particularly in the area
of the Columbia River, which, for
part of its length, flows through the
province.

Diversions Halted.—No effort will
be made by the Provincial Govern-
ment at present to proceed with a
diversion of six miles of the Island
Highway at Cowichan Bay, Hon. F.
M. MacPherson intimated to Up-
land communities this week. Re-
moval of the route from the water-
front was protested, leading to re-
consideration of the issue. Diversions
plans have not been abandoned,
however, and may be revived at a
later date.

Indian Found Dead.—Headquarters
of the Provincial Police reported
yesterday the finding of the body of
Tommy Alex, an Indian of Middle-
boro near Merritt, towards noon.
Inquiry was ordered when examina-
tion of the body by a coroner failed
to disclose the immediate cause of
death. Tommy Alex was last seen
alive at 9 a.m. yesterday, his body
being found three hours later at
Middleboro. An investigation is
proceeding.

Defers Milk Plan.—In the absence
of Premier Pattullo and several
members of the Cabinet yesterday,
the government delayed intended
action to set up a new milk mar-
keting scheme for the Lower Main-
land. Hon. K. C. MacDonald went
over the scheme again with offi-
cials of the Provincial Market
Board and said action would prob-
ably be taken by the Cabinet on
Tuesday. Creation of a single
agency and pooling are unofficially
believed to be parts of the plan
under advisement.

FAVORED SURRENDER
Astana, who became President of
Spain May 10 for a six-year term,
has been a leading figure in the
Madrid Government's attempt to
defeat the insurgents. He and
Francisco Largo Caballero, the So-
cialist Premier, have directed the
Government's fight.
An insurgent broadcast Wednes-
day said Astana wanted to yield to
the fascists but was opposed by
Largo Caballero, who believed there
still was reason to resist.
On Monday, a fascist broadcast-
ing station reported Astana was held
a prisoner in Madrid.
Two weeks ago Madrid police an-
nounced they had thwarted a plot
to kill the President and other Gov-
ernment officials. The next day it
was reported seven persons were ex-
ecuted for the plot.

What Today Means

"LIBRA"
If September 26 is your birthday, the best hours for you on this date are from 10 a.m. to 12 noon, from 2 to 4 p.m. and from 7 to 9 p.m. The danger periods are from 8 to 10 a.m. from 4 to 6 p.m. and from 9 to 11 p.m.
Impatience will spoil many a person's day, so control any feeling of irritability, restlessness, or any other emotion conducive to arousing excitability this day. Avoid amusements involving any possible danger to the safety of arms or legs. Equestrians, divers and those indulging in sports requiring quick foot work must exercise both good judgment and care while participating in any of these activities. If or hearing the "sweetest-sounding" voice of a person, nature you will have to be very diplomatic if you do not care to answer it. This ought to be a good day to straighten out misunderstandings and to bring controversies to a satisfactory conclusion. It takes real courage to admit a mistake, so if, way down in your heart, you know you are wrong about something, be courageous and admit it, and you will have no cause for regret. Married and engaged couples, as well as those engaged in telling very much liked or disliked. You are apt to become possessors of valuable assets, either in land, securities or money. Some form of radio or laboratory work, fiction writing, painting, acting, demonstrating or teaching may enable you to discover a means to become wealthy. Love, marriage, happiness and prosperity appear to belong to your future. If you read a sane, normal life.

The child born on September 26 may, during its adolescence, reveal a fine mentality with little inclination to do it in the accumulation of schoolroom knowledge. This youngster, however, will possibly become interested in some intellectual pursuit, and will prove it has the ability to use its brains advantageously.

A Sunday-school teacher, after telling the class the Parable of the Talents, gave each boy a quarter, explaining that they were to use their capital during the week and report on the following Sunday how much they had made. "Now, then," he said to the first boy when they gathered a week later, how much has your talent gained?" The boy produced fifty cents and the teacher was delighted. "Splendid!" he exclaimed, then turned to the second boy. "And how much have you brought?" "Nothing at all," the teacher's expression changed. "There you see," he told the class, "George has used his talent and brought one talent more, while Jimmy has lost the talent he had." He turned sternly to Jimmy and said, "You have become of your talent?" "I tossed up with George, sir, and he won."

It is a man and September 26 is your natal day. It looks as if you have a wonderful future ahead of you, providing you have sufficient strength of character to resist temptation, and to successfully fight any discouraging condition that might confront you. The stage, screen, platform, paint or studio photography, engineering, salesmanship or the field of inventing are among the activities through which prosperity will come to you.

LOCAL MAN AGAIN HEADS RUGBY UNION OF CANADA

Thoroughbreds Race To Third Dead Heat Before Local Fans

Trossachs and Chatelaine Split Decision in Fourth Event—Zelma Mac Pays \$60.00 in Seventh Gallop—Attractive Programme for Today

Featured by a dead heat in the fourth race when Trossachs and Chatelaine came to the wire together and a number of close finishes in the other events, yesterday's galloping on the popular five-furlong track at the Willows provided many thrills and lots of excitement for the large turnout of racing fans. It was the third split decision that the judges have been forced to give at the local track Trossachs looked like the winner going for home and the only thing that prevented him from taking the lion's share of the purse was the strong closing bid of Chatelaine. The latter came with a burst of speed and caught the leader in the jump in the wire. Trossachs returned \$2.95 straight, while Chatelaine paid \$4.05.

Bill Lawson

While form players had their day, Zelma Mac, Percy Fox's eight-year-old mare, really upped the ante when she led the parade to the judges' stand in the seventh race at one mile. Overlooked by the punters, Zelma Mac paid her backers with \$60.00 for a nose bet, \$21.80 place and \$10.30 show. The one-two in this event, Zelma Mac and Chief's Lady were worth \$113.95.

WIN SIX EVENTS

Public choice mounts clicked in six of the eight events. Red Lady, fourth in the betting odds, carried off the fifth race and returned \$10.00. Apart from this and the handsome price returned by Zelma Mac, odds for the day were short, but found many more fortunate winners.

Flag Bearer, from the Hudkins Stables, with Jockey Lasswell in the saddle, made every post a winner in taking the Speed Handicap, feature race on the day's excellent programme. Duplicity was second and Idle Talk third.

Taking a spin on Eagles Home in the steeplechase, A. De Crossley Denny suffered injuries to his right leg and cuts about his right eye, necessitating his removal to the Royal Jubilee Hospital. He is under the care of Dr. James P. Grant. Denny's injuries are not considered serious.

With good fields for each race, another fine card of racing will be ordered today. First post time is 1:45 o'clock. There are seven flat races and the steeplechase. The Empress Handicap at six furlongs and thirty yards is the feature. Only two days racing remain for British Columbia followers of the "Sport of Kings" before the curtain is rung down on the 1936 season.

ALICE MARBLE ADVANCES TO TENNIS FINAL

National Women's Singles Champion Survives Hectic Three-Set Match

LOS ANGELES, Sept. 25 (P).—Blonde Alice Marble, national women's singles champion, survived a hectic three-set struggle with Mrs. Madge van Ryn, of Orange, N.J., today to gain her way into the women's singles final of the Pacific Southwest tennis tournament. The scores were 2-6, 6-3, 9-7.

Three times during the match the young Eastern matriarch reached match point, but each time Mrs. Marble arose to the occasion and turned back the threat of the former Santa Monica girl.

Mrs. Marble will face the winner of the Carolyn Babcock-Gracyn Wheeler match set for tomorrow.

Mrs. Marble's opponent, Fred Perry and Francis X. Shields, and Donald Budge and Jack Tidball, will settle their respective issues tomorrow. The Budge-Tidball match, originally set for today, was moved over for the big Saturday show.

After a slow start in men's doubles today, Budge and Gene Mako, California's young national doubles champions, smashed their way to a four-set triumph over John van Ryn and Henry Culley, of Santa Barbara, 3-6, 6-3, 6-4, 6-2, to move into the final round.

In women's doubles, Dorothy Bundy, Santa Monica, and Dorothy Workman, Pasadena, defeated Dr. Esther Bartosh and Josephine Crickchank, Los Angeles, in one semi-final, 6-2, 6-3.

Perry and Shields survived a five-set semi-final match with Josephine Brunson, of France, and Tidball, by scores of 3-6, 6-4, 10-12, 6-1, 3-4. The match, which lasted three hours, was concluded under lights. Perry and Shields will play Budge and Mako for the doubles title Sunday.

The Sunday School Football League will commence today with two fixtures carded. The games will be played at Central Park and the High School grounds.

St. Alban's will oppose Emmanuel Baptist at Central Park with Jack Woodley as arbiter; while Metropolitan and Centennials will meet at the High School grounds. T. Carlow will be the referee.

The letter of resignation is a lengthy one, covering two and a half folios of letter paper and goes fully into the history of the dispute, or ruling of the parent body. In the

first paragraph the committee maintains the commission is not fully conversant with the "state of affairs in Victoria" and do not realize what a stunning blow they have dealt the game on the Lower Island by their sudden decision not to permit a Victoria entry in the Inter-City League on the same basis as the last four seasons—one and a half seasons under the Pacific Coast Association and two and a half seasons under the commission.

Further, the letter states, "The argument that inter-city competition kills the local game is not borne out by the keenness of the rivalry shown in our league and cup games. Competition on the Victoria United team spurred our players on to greater efforts, efforts already exaggerated because of local team rivalry."

Directly concerning the commission ruling the letter points out: "The Victoria committee was appointed to advise the commission on matters of local conditions and to operate the games of local league and cup competitions and, as an organization fully conversant with conditions has rendered its advice on matters in which the commission cannot be expected to be familiar."

"In the present matter in question its opinion was not sought, but a definite policy announced. The committee stated its opinion when the policy was announced and has reiterated it since."

Continuing, the letter states: "The present action of the commission amounts to a breach of faith with the Victoria public who, judging by the financial returns supported the Inter-City League games as well as, and in some cases better than the Vancouver followers of Vancouver teams."

REMAINS LOYAL
The letter closes with: "The members of the Victoria committee are still loyal to the commission, but in view of the recent decision of the commission, which has had the effect of depriving an entry from Victoria in the Inter-City League despite the popularity of the series in the last four seasons, the Victoria committee cannot support the decision of the commission. It is therefore with extreme regret that the members and secretary of the Victoria committee tender their resignation. The decision to do so being unanimous."

INTER-CITY FIXTURE AT MACAULAY POINT
Macauley Point Golf Club divot diggers will be all home to visiting Cowichan players tomorrow in an interclub fixture. Programmes will be played in the morning and singles after the luncheon interval. Sixteen will play on each squad with the first players teeing off at 9:15 o'clock.

MRS. MULQUEEN CAPTAINS CLOSED GOLF CROWN

Gains 3 and 2 Win Over Mrs. Darling, Montreal, in Final

Toronto Veteran Displays Fine Golf To Defeat Canadian Open Champion in Closed Tournament at Pointe Claire—Mrs. Darling in Trouble After the Eighth Hole

Pointe Claire, Que., Sept. 25.—A veteran from Toronto, Mrs. F. J. Mulqueen, came back to the golfing heights today after thirteen years.

Champion of Ontario, Mrs. Mulqueen defeated Mrs. A. B. Darling, of Montreal, 3 and 2 over Beaconsfield course to take the Canadian women's closed golf championship and squelch the Montrealers' bid for a sweep of the major feminine golfing crowns—the open and closed. Mrs. Darling won the open last Saturday.

Mrs. Mulqueen, a closed champion thirteen years ago when she was Sydney Pepper, won the coveted crown of Calgary's Mrs. Roy Horne with an unspectacular but steady display of over-par shooting. All she needed was that steadiness as the open champion cracked after two successive weeks of brilliant play.

TAKES LEAD
The Toronto woman watched Mrs. Darling take a two-hole lead in the first three holes, then went on to overcome the deficit and take the lead herself by plugging her shot down the centre, while Mrs. Darling pressed her shot—hooking, slicing and missing easy putts.

The break of the match came on the eighth, when Mrs. Darling's driver failed her. From then, until the match ended on the sixteenth, the open champion was in continuing trouble and Mrs. Mulqueen took advantage by playing for halves after establishing a two-up lead at the turn.

SIX CLUBS TO PLAY

The new clubs will bring the number to six and should make for more and better competition. Other eleven in the league are Spencers, Hudson's Bay, Navy and Victoria Longshoremen.

"Island Beers Are Best"
You can travel Canada from coast to coast... and find brands of beer of such uniformly high quality as those produced on Vancouver Island. Why? Ross Management Will Cancel Bout if Expense Money Not Posted by Monday

CHICAGO, Sept. 25 (AP).—The world's welterweight championship battle between Barney Ross, titleholder, and Jack Carroll, Australian challenger, scheduled for Sydney, Australia, December 8, was on the verge of collapse today, due to the failure of the Chicagoan to receive \$7,000 in advance for expenses. Sam Plan, co-manager of Ross, said he had received no word from Charles Lucas, Sydney promoter, after he had promised to cable the money two days ago. Ross, with his handlers, had planned to leave for Vancouver next Thursday, sailing on October 7, unless he received the \$7,000 by Monday he would call off the match and seek opponents in this country.

A "HUMAN" BEING

What is a "human" being? A symposium of opinion on this rather simple question would probably serve to show only that our most universal quality is diversity of viewpoint.

So, Shakespeare described a human being as one who looks before and after.

William Lloyd Garrison said that a human being is a being in whom, whatever the sex or complexion, God-given rights are inherent.

And, according to the historian, Edward Gibbon, a human being or human institution is one that must retrograde if it does not advance.

Since centuries of antecedents in our outlook, each individual's conception and definition of what a human being will be different—yet it will be the same and it will be right.

This is because of the flexibility and channel-like characteristics of the word "human," which is derived from the Latin "humanus," akin to "homo," man, and which therefore connotes essentially that which belongs to man or mankind; and accordingly has his qualities or attributes.

Jane Dixon Says:

ROUND-UP DAY PROBLEMS: A READER ADVISES A PUZZLED WOMAN TO MARRY THE FATHER OF HER CHILDREN—THE GIRL WHOSE BOY FRIEND SAYS HE CAN'T "AFFORD TO GET CRAZY" ABOUT A GIRL WHEN HE HASN'T A JOB OR A PROSPECT

Time to take off on another "round-up."

All set?

Let's go!

G.W.H.: Thanks so much for your kind offer of help to the wife who has suffered a "breakdown." As you say the knowledge one is placing a heavy burden on a devoted husband adds to the mental suffering. Please tell us how you managed to turn victory into defeat. It is against the rules of the column to supply addresses of correspondents.

E.B.S.: Young man is right. He can't "afford to get crazy" about a girl when he lacks even the means to bridge the twenty miles between them. His remark that he calls on the other girl because she lives nearby and he can walk to her house is not gentlemanly and is a very poor way of returning her hospitality. Try to lose interest in that "someday" he has promised to tell you the reason he stopped calling on you.

Just a Reader: Your commendation is deeply appreciated. I shall try to go on deserving it.

For Bewildered: "Try forgetting yourself and do things for your husband that will make him happy." See a good doctor. Ten doctors and surgeons gave me up—operation after operation. They said I had one chance in ten to live, and I took that chance. Today, although I'm not strong, I can do many things: tennis, driving, etc. I'm even going on a trip with my husband the first one in a long, long time. He has loved and stood by me, and we've concluded trouble brought us closer together. Get after whatever ails you and never give up.—Ethel E.

Broken-Hearted: If the young man can't rid himself of habits as destructive to happiness as excessive drinking and blasphemy, he is a very poor risk as a husband. Do not pledge yourself to marry him when you've finished college. Wait and see what kind of a man he makes of himself. A true woman does not continue to love a man who fails in respect to her and himself.

Sixteen: I am not familiar with the articles written by the woman you name, nor with her personal and private affairs. The character of the "pathetic old maid" is by no means destructive. Many fiction writers have used her to give a fillip to their pages.

Out-the-Pike: Your request just reached me. You are very young to go about with the state official who must, in his position, be a mature man. Aren't there some young men nearer your own age who might be interested in escorting you places? However, if the man-in-question is as safe as his service implies, there could be no harm in your accepting him as a friend.

K.D.T.: No matter how "different" you are, the rules of this column cannot be changed to meet your need. It cannot be used for purposes of social contact. The way to make worth-while friends is to be friendly, interested and interesting. You can be all three by concentrating on the job.

For Rope's End: "If the father of your children can and will marry you you are making a grave mistake by not doing so. You owe it to your children to give them their father if it is possible. Remember the Scripture: 'Things done in secret shall be proclaimed from the housetops.' Some day the children will know of your sorrow. Marry the man, become a member of a church, bring your children up in it and you'll blot out the past.—Interested"
